PROSIDIAN CONSULTING HAS BEEN AWARDED A GSA MISSION ORIENTED BUSINESS INTEGRATED SERVICES (MOBIS) CONTRACT # GS-10F-0309Y

ProSidian Consulting, LLC has been awarded a U.S. General Services Administration (GSA) Mission Oriented Business Integrated Services (MOBIS) 874 1 contract for Consulting Services (Contract# GS-10F-0309Y). The contract has three (3) five (5) year options for a total of twenty (20) years with the base period beginning May 18, 2012 through May 17, 2017. MOBIS is a Government Wide Multiple Award Schedule (MAS) Acquisition Contract that provides federal government agencies a centralized source to acquire Consulting Services.

The contract vehicle is open to all federal agencies and provides streamlined access to a broad range of management and technical support services, enabling total and complex consulting solutions to be acquired under a pre-competed multiple award contract. The MOBIS program offers a full range of management and consulting services that can improve federal agency and private sector performance and their endeavor in meeting mission goals.

Founded in 1949, GSA serves as a centralized procurement and property management agency for the federal government. GSA manages more than one-fourth of the government's total procurement dollars and influences the management of \$500 billion in federal assets, including 8,300 government-owned or leased buildings and 170,000 vehicles. MOBIS is a contracting mechanism by which ProSidian Consulting's professional services can be accessed quickly and economically. Similar to an Indefinite Delivery, Indefinite Quantity (IDIQ) contract, MOBIS was created by GSA to enable streamlined procurement from prequalified contractors.

As a MOBIS contractor, ProSidian Consulting, LLC possess the necessary expertise to facilitate how the federal government responds to a continuous stream of new mandates and evolutionary influence such as the President's Management Agenda; Government Performance and Results Act; Federal Acquisition Streamlining Act; OMB Circular A-76; Federal Activities Inventory Reform Act; government reinvention initiatives such as benchmarking and streamlining. Through the MOBIS Schedule, ProSidian Consulting can help federal agencies and private sector clients improve performance and accomplish mission goals with specialized management consulting, training services, facilitation, surveys, acquisition management support, program and project management, as well as introduction of new services.

"This MOBIS Contract# GS-10F-0309Y marks another important milestone in the growth of our firm," said Adrian Woolcock, Managing Principal of ProSidian Consulting. "We provide a full range of professional services to our government and commercial clients, and this award is a logical extension of our activity. We are not an exotic species but there are only 1758 contractors currently awarded the Category 874-1 Consulting Services Contract. We look forward to better serving our existing Federal clients and welcome the opportunity to develop new public and private sector relationships in the future."

This process was completed after a long and detailed review period with support provided by Archie D. Black, CFCM Managing Member at Government Contract Services, LLC. With its expansive scope, access to the best in class in the private sector and ability to provide customized solutions tailored to agencies' unique consulting needs, ProSidian Consulting can serve the acquisition needs of the federal government as a key component of MAS portfolio of cost effective consulting solutions.

ABOUT GSA MOBIS

The Mission Oriented Business Integrated Services (MOBIS) program offers a full range of management and consulting services that can improve a federal agency's performance and their endeavor in meeting mission goals. MOBIS contractors possess the necessary expertise to facilitate how the federal government responds to a continuous stream of new mandates and evolutionary influence, such as the President's Management Agenda; Government Performance and Results Act; Federal Acquisition Streamlining Act; OMB Circular A-76; Federal Activities Inventory Reform Act; and government reinvention initiatives such as benchmarking and streamlining.

What is GSA Advantage? GSA Advantage (<http://www.GSAadvantage.gov>) is the Federal Government's premier on-line catalog, information, and ordering system which gives Federal customers the ability to quickly search, compare and order those products and services which best meet their needs. Agencies may also submit request for quotes using the GSA Advantage "eBuy" RFQ system which is a service of GSA Advantage.
